

<b>Triennial Assessment Tool</b>			
Date of Assessment: 5-29-2020	Name of School District: Bartow County		Number of Schools in District: 19
<b>Nutrition Education Goal(s):</b>	<b>Goal Status (select one):</b>	<b>Number of Compliant Schools:</b>	<b>Notes:</b>
1. Promote Nutrition Education consistent with federal and state laws, standards, and regulations.	Completed	19	The Bartow County School Nutrition website and Facebook page promotes nutrition education throughout the year. All 19 schools have access to this material. Additionally, cafeterias have nutrition promotions throughout the year. Though all schools have access to nutrition education via the website and cafeteria, more schools should include nutrition education in the classroom. Based on responses from the Triennial Assessment, many P.E. teachers incorporate nutrition lessons in P.E., and 11 schools selected that this goal is "complete."
<b>Nutrition Promotion Goal(s):</b>	<b>Goal Status (select one):</b>	<b>Number of Compliant Schools:</b>	<b>Notes:</b>
1. Promote healthy eating habits throughout the school environment as defined by Nutrition Standards for All Food Sold in School by the Healthy, Hunger-Free Kids Act of 2010.	Partially Completed	19	Healthy eating habits are promoted within the cafeteria at each school. Guidelines for all foods sold in schools also promote healthy eating habits. Exempt fundraisers are monitored and tracked by at least 10 schools (per Triennial Assessment results). Healthy eating habits should be modeled by teachers and school staff, and incorporated into classrooms.
<b>Physical Activity Goal(s):</b>	<b>Goal Status (select one):</b>	<b>Number of Compliant Schools:</b>	<b>Notes:</b>

Georgia Department of Education School Nutrition

<p>1. Students will develop the knowledge and competencies necessary to perform a variety of motor skills through physical activity.</p>	<p>Partially Completed</p>	<p>19</p>	<p>Elementary Schools meet these 3 physical activity goals easily, as students are required to have weekly P.E. classes. Because MS and HS get more freedom in picking their schedule, and because P.E. classes are not required for all students, there are students who do not receive P.E. classes. However, all 19 schools offer students the opportunity to develop the knowledge and competencies outlined in the goal. Suggestion: make P.E. mandatory for each student each year at MS and HS levels. 10 schools reported 100% completion of this goal.</p>
<p>2. Students will regularly participate in physical activity.</p>	<p>Partially Completed</p>	<p>19</p>	<p>All students have the opportunity to participate in physical activity. All elementary students are required to have P.E. classes yearly. In middle and high schools, not all students choose to participate. 9 schools reported 100% completion of this goal.</p>
<p>3. Students will understand the short- and long-term benefits of physical activity as it relates to healthy living.</p>	<p>Partially Completed</p>	<p>19</p>	<p>Based on the Annual Wellness Activities Surveys, almost every Elementary School participates in FitnessGram and the Kids Heart Challenge. *This is a continual process. Therefore, it is "partially completed" as there is always more understanding students can learn about the importance of physical activity. 7 schools reported 100% completion of this goal.</p>

This institution is an equal opportunity provider.

Other School-Based Activities that Promote Student Wellness Goal(s):	Goal Status (select one):	Number of Compliant Schools:	Notes:
<p>1. Support the integration of a farm to school program into the school food program and the curricular and co-curricular activities as appropriate to facilitate the nutritional and educational goals of the school district.</p>	Partially Completed	14	<p>75% of schools in district have an active edible garden, including raised beds, trellis gardens, fruit trees, etc. However, many Wellness Representatives and other staff/community members are unaware of all the farm to school activities that occur throughout the year. For example, only 7 out of 14 Wellness Representatives responded that their school has a garden.</p> <p>Some garden programs at schools rely on community members. Many staff members express interest in starting/expanding their school garden.</p> <p>Need work on updating Farm-to-school and school garden webpages.</p> <p>2 schools reported 100% completion of this goal.</p>
Nutrition Guidelines for All Foods and Beverages Sold to Students	Status (select one):	Number of Compliant Schools:	Notes:
<p>1. Nutrition Standards for all foods sold on school campuses during the school day shall comply with Healthy, Hunger-Free Kids Act of 2010.</p>	Partially Completed	19	<p>Wellness Representatives are responsible for keeping track of all foods sold on campus (except foods sold from the SN program) to students during the school day. The district continues to work towards 100% compliance with this policy, though there may be schools who get by with selling non smart-snack compliant items.</p> <p>11 schools reported 100% completion of this goal.</p>

<p>2. Wellness Policy Representative is responsible for obtaining and maintaining all required documentation, including food labels of products and receipts, for the fundraiser.</p>	<p>Partially Completed</p>	<p>19</p>	<p>Wellness Representative are responsible for this goal. This expectation is clearly expressed at the Wellness Policy meeting each year. An email reminder is also send to Wellness Representatives to keep track of the required documentation. ALES did an amazing job of keeping track of all requirements. 7 schools reported 100% completion of this goal.</p>
<p><b>Nutrition Guidelines for All Foods and Beverages Not Sold to Students</b> <i>(i.e. classroom parties, foods given as reward).</i></p>	<p><b>Status (select one):</b></p>	<p><b>Number of Compliant Schools:</b></p>	<p><b>Notes:</b></p>
<p>1. Wellness Policy Representative shall follow State Board of Education guidelines when approving exempt fundraisers.</p>	<p>Partially Completed</p>	<p>19</p>	<p>Wellness Representatives understands this expectation and should work towards keeping track of and approving exempt fundraisers. The Exempt Fundraiser Tracking Sheet is kept on file at each school. 10 schools reported 100% completion of this goal.</p>
<p><b>Policies for Food and Beverage Marketing</b></p>	<p><b>Status (select one):</b></p>	<p><b>Number of Compliant Schools:</b></p>	<p><b>Notes:</b></p>
<p>1. School-based marketing will be consistent with nutrition education and health promotion.</p>	<p>Partially Completed</p>	<p>19</p>	<p>Healthy Habit Choice posters are displayed in many elementary schools. Cafeterias provide nutrition education and health promotion. In the future, Wellness Representatives should monitor the school-based marketing more closely to ensure that all message are consistent with nutrition education and health promotion. 10 schools reported 100% completion of this goal.</p>

Key	
Completed	select if you have met this goal at all schools
Partially Completed	select if one or more schools has met this goal
In Progress	select if you are working on the goal, but none of the schools have met the goal
Not Completed	select if you have not begun working on this goal

Wellness Policy Leadership <i>Name of school official(s) who are responsible to ensure compliance.</i>	Title and School	Notes:

---	----------	--

**Summary Report of Triennial Assessment** *(include a summary of the extent to which schools are in compliance with the wellness policy, the extent to which the wellness policy compares to model wellness policies, and a description of the progress made in attaining the goals of the wellness policy):*

The majority of schools (apprx. 11) are 100% in compliance with the Wellness Policy. Elementary Schools are doing a great job meeting all physical activity goals. All 19 schools have achieved the nutrition education goal, though there is always a need for increased nutrition education. The Farm to School program continues to grow and gain the interest of more teachers and community members, including parents. Each year, our farm to school efforts expand. There is a great opportunity to incorporate farm to school lessons into the STEM program at all levels, as these activities are complimentary to one another. One of the greatest compliance challenges is with the "Nutrition Standards for all foods sold on school campuses during the school day shall comply with Healthy, Hunger-Free Kids Act of 2010." We have numerous Wellness Representatives who are very dedicated to keeping track of exempt fundraisers and are passionate about improving the student health atmosphere of the schools. Evident progress is being made towards 100% completion of goals outlined in the BCSS Wellness Policy.
